

## Thank You for Visiting Us at BATTERY JAPAN 2026

Thank you very much for visiting the **20th International Rechargeable Battery Expo “BATTERY JAPAN”**, held from March 17 to 19, 2026.

Sincere appreciation is also extended to all who took the time to visit our booth.

The punching and stacking equipment received highly positive feedback, for which we are truly grateful.

The valuable comments and insightful questions shared during the exhibition serve as a strong encouragement, further driving efforts to deliver advanced solutions that contribute to the development of the battery industry.

Should there be any questions, requests for additional information, or interest in a more detailed demonstration of the products introduced, please feel free to make contact at any time. Your continued support is sincerely appreciated.

Best regards,

Takatori Corporation
